

Report from LSFC April 2021

Another very tricky year on and off field. With another stop start season we have seen plenty of new faces to the club; however the first team continue to struggle. The last lockdown saw a null and void season which unfortunately sees them remain at the same level struggling to compete.

Off the field with our income severely cut we are thankful and very grateful the support we received from the council and our few sponsors we have.

So have had to adapt risk assessment after risk assessment to match the forever changing guidelines. Which with a very small list of volunteers this has not been easy.

Anyway we move on and hopefully can get back on track in the near future.

Regards

Andrew (LSAFC)
